Dear parents and carers

RE: Remote Learning Technology Survey

We know (from personal experience) how difficult supporting your children with home learning was during the first lockdown. We really hope that our full timetable of online provision this time has improved things for you at home and, most importantly, means your children will not fall behind with their learning.

However, we also understand that it relies on the technology and internet connection you have available and we are really keen to better understand that situation for our community.

We were fortunate to be gifted some ChromeBooks last year by Capital One and the DfE have now sent us somewhere in the region of 300 laptops to loan out (the final batch will start to go out to pupils next week). The DfE have also announced ways we can request you support with connectivity if it is required.

To help us prioritise who gets laptops, support the provision of data and understand the situation for our school community, I would really appreciate it if you would take the time to complete a short survey. We are asking that you do this whether you have had problems with devices or connections or not and whether you have had a device from us already or not.

The survey can be found on the NGA website on the Technology to Support Home Learning page of our Covid-19 Information Hub or by clicking on this link: [Remote Learning Technology Survey](#).

Yours faithfully

David Tungate
Principal
Nottingham Girls' Academy

-
- We strive to fulfil everyone's learning potential. • We value high standards, hard work and a ceaseless desire to improve.
 - We provide a safe, kind, nurturing and inclusive environment. • We enjoy the journey together.
